### **COUNTRY FOCUS- MALAYSIA**

**Globelink Malaysia** was established in 1991 covering the major ports in West Malaysia. This is the list of our offices in **Malaysia**:

Malaysia is located in the southeast of the Asian continent; therefore this region is often referred to as Southeast Asia. Malaysia consists of two parts: Peninsular Malaysia, located between Thailand in the north and Singapore in the south and the two provinces Sabah and Sarawak, located on Borneo. Peninsular Malaysia is located just above the equator and Borneo just beneath it. The large island Borneo is shared with Indonesia (they call this island Kalimantan) and Brunei. To the north it borders the Philippines (that still has claims on parts of Borneo) via sea.

Port Klang is situated on the west coast of Peninsular Malaysia, about 40 km from the capital city, Kuala Lumpur. Port Klang is being developed as the National Load Centre and a hub for the region that handles 55% of the container trade in Malaysia. This ideal geographical location makes Port Klang the first port of call for major shipping lines and for ships on the eastbound leg and the last port of call on the westbound leg of the Far East-Europe trade route. North Port was designated a Free Commercial Zone in April 1993, followed by West Port in June 1996, with the Port Klang Authority as the Free Zone Administrator. Here are the active International seaports / domestic seaports in Malaysia:
